

Processes and Procedures for Data Analyzes and Collection

Collection, Analyzing, and Application

Teachers will utilize the following data:

Attendance records

Grade data

Performance on Benchmark tests

Performance on MAP tests

KPREP (if applicable)

Intervention/ESS records

Brigance (K only)

In order to maintain continuous improvement the principal and teachers will monitor and analyze the above data. Through written reports and summaries submitted to the principal teachers will be held accountable for reviewing the data in a timely fashion. Upon completion of analyzing the data, teachers will determine a growth goal(s) for their classrooms or an individual student. Application of the use of data must be evidenced by change in instruction, placement, services, etc. as a result of the data analyzes.

Fall Benchmark and MAP assessments- analyzes and application due 2 weeks following conclusion of testing. Teachers will utilize given form to document standard analysis on Benchmark and Tier placement and growth on MAP.
