1.1: The system engages in a systematic, inclusive, and comprehensive process to review, revise, and communicate a school purpose for student success.				
1.2: The system ensures that each school engages in a systematic, inclusive and comprehensive process to review, revise and communicate a school purpose for student success.				
1.3 The school leadership and staff at all levels of the system commit to a culture that is based on shared values and beliefs about teaching and learning and supports challenging, equitable educational programs and learning experiences for all students that include achievement of learning, thinking and life skills.				
1.4 Leadership at all levels of the system implement a continuous improvement process that provides clear direction for improving conditions that support student learning.				
<p style="text-align: center;">Delta</p> <p>INDICATOR 1.1</p> <ul style="list-style-type: none"> There is evidence of stakeholder input The purpose statement is clearly focused on student success it could be argued that the wording not as student centered as it could be. <p>INDICATOR 1.2</p> <ul style="list-style-type: none"> There is ample evidence showing a commitment to shared values and beliefs about teaching and learning and its relationship to decision making There is evidence of that commitment being reflected in communication among staff There is evidence of high expectations for all staff <p>INDICATOR 1.3</p> <ul style="list-style-type: none"> There is evidence that leaders use a continuous improvement process through the use of PDSAs. There is evidence are consistently engaged in the process School action steps are present 		<p style="text-align: center;">Delta</p> <p>INDICATOR 1.1</p> <ul style="list-style-type: none"> There is no defined process for the review, revision, and communication of the district purpose. Therefore there was not a record that such a process is being maintained. There is a lot of evidence of meetings where a vision was developed but the process is not clear. Since there is no process clearly outlined there is no evidence that there is implementation with fidelity on a regular basis There is no evidence that participation by representatives were selected at random <p>INDICATOR 1.2</p> <ul style="list-style-type: none"> The link that says it goes to ELEOT actually takes you to the district walkthrough document. It would be beneficial to have a link to both since they both are being utilized. More evidence is needed to show that leadership and staff hold each other accountable. More evidence is needed to show how system personnel monitor and maintain data about each school and provide feedback for the improvement of the implementation of the process to school personnel. <p>INDICATOR 1.3</p> <ul style="list-style-type: none"> There is no evidence of the requirement that leaders use a documented systematic continuous improvement process. There is no district level 		

	<p>PDSAs. Only school level</p> <ul style="list-style-type: none"> • An up to date district profile that includes current and comprehensive data was not evident. Thus no system to maintain such a profile was evident • District goals for improvement is not evident • There are no district level action plans with measurable objectives, strategies, activities, and resources and timelines for achieving the goals. • No documentation was found that show school personnel hold one another accountable • No evidence that the process is reviewed regularly • No documentation linking district continuous improvement process to improved student achievement and instruction • No documentation linking challenging educational programs and equitable learning experiences are implemented so that all students achieve learning, thinking and life skills necessary for success. <p><u>Indicator 1.4</u></p> <ul style="list-style-type: none"> • No documentation that all stakeholder groups are engaged in the process. • Only included PowerPoints and communication from two schools. There is evidence from the other schools that could be uploaded. • T & L presentations only go through December. Instead of scanning in the documents it would be better to link it to the website where you can get access to all the PowerPoints. • There is no documentation as to how the processes are reviewed and evaluated. • There is no evidence of documentation that the process yields improved student achievement and conditions that support student learning is available and communicated to stakeholders.

3.1 The school's curriculum provides equitable and challenging learning experiences that ensure all students have sufficient opportunities to develop learning, thinking, and life skills that lead to success at the next level.				
3.2 Curriculum, instruction, and assessment are monitored and adjusted systematically in response to data from multiple assessments of student learning and an examination of professional practice.				
3.3 Teachers engage students in their learning through instructional strategies that ensure achievement of learning expectations.				
3.4 School leaders monitor and support the improvement of instructional practices of teachers to ensure student success.				
3.5 Teachers participate in collaborative learning communities to improve instruction and student learning.				
3.6 Teachers implement the school's instructional process in support of student learning.				
3.7 Mentoring, coaching, and induction programs support instructional improvement consistent with the school's values and beliefs about teaching and learning.				
3.8 The school engages families in meaningful ways in their children's education and keeps them informed of their children's learning progress.				
3.9 The school has a formal structure whereby each student is well known by at least one adult advocate in the school who supports that student's educational experience.				
3.10 Grading and reporting are based on clearly defined criteria that represent the attainment of content knowledge and skills and are consistent across grade levels and courses.				
3.11 All staff members participate in a continuous program of professional learning.				
3.12 The school provides and coordinates learning support services to meet the unique learning needs of students.				
<p style="text-align: center;">Plus</p> <p>Indicator 3.1</p> <ul style="list-style-type: none"> Well organized and solid information to support the systems curriculum instructional design Clearly defined evidence Supports include Pacing Guides, examples of long range plan, LDC/MDC/CIS examples with student work. <p>Indicator 3.2</p> <ul style="list-style-type: none"> Curriculum guides/long range plans are provided across K-12 Scope and sequence is provided Standards Based Report Cards Walk through data Sample of products such as FAL reflection and LDC module jurying rubric. Evidence is provided from some elementary schools but not all. Also there is no evidence indicating that teachers from the middle and high school use instructional strategies that require student collaboration, self-reflection and development of thinking skills. No evidence of teachers personalizing instructional strategies and interventions to address individual student needs. There is evidence from one classroom close reading module. No authentic assessments provided or integration of technology. <p>Indicator 3.4</p> <ul style="list-style-type: none"> Make sure that you have thoroughly blacked out names on the Corrective Action Plan sample Include the Orientation, Induction, and Retention Framework to spotlight teacher leaders. No documentation of lesson plans, gradebook, or other data record systems. This indicator shows that instructional practices are being formally monitored but does not show consistency. <p>Indicator 3.5</p> <ul style="list-style-type: none"> There is limited evidence for PLC process for the elementary level. Protocols are only available for the district, middle, and high school. Suggestion: You could use links that take you directly to district and school PLC's on websites. There is not ample evidence to support that peer coaching, study teams, discussion of inquiry practices are conducted regularly.
