

Program Review Assurances

School Name:	E.P.WARD ELEMENTARY
School Address:	12811 Morehead Rd. Wallingford, KY 41093
School District:	Fleming
District Address:	211 West Water St. Flemingsburg, KY 41041
Principal Name:	Terra Greer
Phone:	606-876-2061
E-mail:	terra.greer@fleming.kyschools.us

By signing this assurance statement, schools including principals and SBDM Council members, as well as superintendents, are documenting that foundational elements have been reviewed by school staff and are either in place or have been identified as areas of growth for the 2016-17 school year. This statement further ensures that review and approval prior to submission in ASSIST will be completed on or before the close of business on June 15 understanding that if this date is not met a score of zero will be assigned.

Writing Program Assurances

- All students will be recipients of writing instruction/experiences throughout the school year.
- When writing is considered in the school, the implication is that a writing program consists of speaking, listening, writing, reading and language usage.
- Students will write for a variety of audiences and purposes throughout the school year.
- Consistent and timely feedback is provided to improve and guide students' writing skills.

Please provide an explanation for any unchecked items. (Evidence may be requested to justify the explanation.)

Visual and Performing Arts Program Assurances

- Teachers instructing in the areas of the visual and performing arts are certified in the area they are instructing in accordance with KRS 161.028 (1).
- At the high school level, a variety of courses are offered that fall into the visual and performing arts sub-categories: dance, drama, music, media art and visual art. Please attach a course listing and the number of enrolled in each course.
- Participation in one course does not prevent students from having an opportunity to participate in visual and performing arts courses.
- Schools address all five areas of the visual and performing arts: music, dance, drama, media art and visual art.
- Arts teachers have access to equitable resources and space to implement successful programs.

Please provide an explanation for any unchecked items. (Evidence may be requested to justify the explanation.)

N/A Elementary

Practical Living and Career Studies (PLCS) Program Assurances

- Teachers instructing in the areas of physical education and health are certified in the area they are instructing in accordance with KRS 161.028 (1).
- At the high school level, a variety of courses are offered that fall into PLCS sub categories: physical education, health, career studies and consumerism. Please attach a course listing and the number of students enrolled in each course.
- Participation in one course does not prevent students from having an opportunity to participate in PLCS courses.
- Schools address all four areas of the PLCS: physical education, health education, consumer studies and career studies.
- PLCS teachers have access to equitable resources and space to implement successful programs.

Please provide an explanation for any unchecked items. (Evidence may be requested to justify the explanation.)

K-3 Program Assurances

School Name:	E.P.WARD ELEMENTARY
School Address:	12811 MOREHEAD RD.
School District:	FLEMING
District Address:	211 WEST WATER ST. FLEMINGSBURG, KY 41041
Principal Name:	TERRA GREER
Phone:	606-876-2061
E-mail:	terra.greer@fleming.kyschools.us

By signing this assurance statement, schools including principals and SBDM Council members as well as superintendents are documenting that these foundational elements have been reviewed by school staff and are either in place or have been identified as areas of growth for the 2016-17 school year. This statement further ensures that review and approval prior to submission in ASSIST will be completed on or before the close of business on June 15 understanding that if this date is not met a score of zero will be assigned.

A strong program for the youngest learners is essential to assuring that all students have a solid foundation upon which both future and deeper learning is built. The K-3 program must provide a solid core instructional foundation that provides equitable access for all students to demonstrate learning of the standards for primary students in each area described in Kentucky's Academic Standards (arts, English language arts, mathematics, practical living/career studies, science, social studies and technology).

In addition to a strong core instructional program, supports should be established and implemented that assure students' needs are addressed through interventions or acceleration to progress when appropriate.

Based on the descriptors of strong K-3 programs included in the *K-3 Program Review Rubric*, the following are in place (check all that exist):

- A core instructional program for all K-3 students that provides equitable access to all required Kentucky Academic Standards.
- A system that addresses accelerated learning, achievement gaps, highly-effective instruction, readiness to learn and student transitions. The system provides a seamless framework, using state and federal funding that addresses academic and behavioral needs and is accessible to all students. (As required in Senate Bill 1 (2009) including specifically diagnostic data)
 - Support for early intervention is provided through a multi-tiered system of support including differentiated as well as targeted, intensive academic and behavioral interventions.
 - Universal screening and diagnostic assessments are used to determine individual student needs and baseline performance. Multiple sources of data are used when determining the level of intervention services needed.

- Academic and behavioral interventions are research-based and vary in intensity and duration to meet the needs and to maximize the achievement of the individual student.
- Interventions are implemented with fidelity and delivered by individuals qualified to provide the intervention services.
- Advancement of the individual student is monitored through a comparison of baseline data collected prior to intervention and ongoing progress data, including documentation of assessments, measures of behavior, progress during instruction and evaluation, at regular intervals for continuous need analysis.
- Individual student reports are shared with the parents/guardians of each student in kindergarten through grade 3 that summarize the student's skills in mathematics, reading and writing; the student's behavior and any other intervention plans and services being delivered.

A continuous improvement process is in place for the K-3 program.

- The focus area/goal for program improvement is:

Reading

- In order to fulfill compliance with KRS 158.305 (10) this school will provide data to the local district office that details:
 - The total number of students receiving targeted or intensive academic and/or behavioral interventions.
 - The total number of students who exited targeted or intensive academic and/or behavioral interventions.
 - The types of scientifically based research interventions utilized in the school, including particular programs, strategies and resources used for their implementation.

Please provide an explanation for any unchecked items. (Evidence may be requested to justify the explanation.)
